The Master of International Business (MIB) is based on coursework. It is aimed at graduates interested in business training in the context of a globalised business environment. The MIB recognises the emergence of an international trade culture at all levels of business activity and that a manager's qualifications and competencies need to have the same international dimension. The program of study is designed to develop core business management skills and to provide the opportunity for more advanced studies concentrating on international aspects of trade. On completion of the program, graduates will have acquired the financial, marketing and people skills essential to the management role in a globally competitive business environment; advanced knowledge and understanding of the current dynamics in international business; and the ability to apply such knowledge to the operational mechanisms of international trade within its legal and ethical framework. Offered Locations and Delivery Modes:

Introduction

The course caters for graduates of an appropriate undergraduate human biology degree to provide focussed training in physiotherapy. The degree will incorporate lectures, laboratories and tutorial sessions with a strong professional practice component to provide students with the necessary knowledge, attitudes and clinical decision making skills required to practise as physiotherapists. A series of problem based clinical studies will further develop the skills and flexibility of students, allowing them to adapt to the challenges encountered in the delivery of physiotherapy in a wide variety of settings.

Professional experience will be gained in public hospitals and private practices in the ACT and surrounding region. This will be consistent with the guidelines for registration of physiotherapists approved by ACOPRA. Total clinical placement experience will be up to 1000 hours during the course, however an individual student's clinical placement experience within the sub-disciplines of physiotherapy will differ from student to student. Clinical case write-ups and log-book entries will supplement the clinical and professional aspects. Monitoring of the academic rigour will occur through a University of Canberra course consultative committee.

This course will have accreditation sought by the Australian Council of Physiotherapy Regulatory Authorities (ACOPRA) to be recognised by the Health Professions Registration Board of the ACT and the Australian Physiotherapy Association.
